

Next Steps

- See if there are any contacts from this Webinar Series Feb 21, 2013- (organized by scrap tire workgroup) [[HYPERLINK "http://www3.epa.gov/epawaste/conserve/smm/web-academy/2013/feb21.htm"](http://www3.epa.gov/epawaste/conserve/smm/web-academy/2013/feb21.htm)]
 - Contacts from RMA did the webinar on rubberized asphalt.
- **2015 Scrap Tire & Rubber Users Directory**
 - List of Processors/collectors/haulers by state- 30 pages
 - National/state associations
 - Market info on civil eng/crumb rubber/ground rubber/tdf
 - Rubber recyclers/re-processors(40 diff companies make crumb rubber, some ambient or cryo some also make other products) /material suppliers
 - recycled rubber products
 - tire stockpile abatement reports
 - equipment manufacturers & technology
- Watch the videos of the tire crumb
- Reach out to the Clemson people – ask Cheryl then call then ask if we can give contacts to ord

States, academics, tire manufacturers, tire crumb manufacturers, turf installers,

Crumb Rubber Associations and related Associations

[[HYPERLINK "http://www.rma.org"](http://www.rma.org) \t "_blank"]

The Rubber Manufacturers Association (RMA) is the national trade association for tire manufacturers that make tires in the U.S.

[[HYPERLINK "http://www.sportsbuilders.org"](http://www.sportsbuilders.org) \t "_blank"]

The American Sports Builders Association, a non-profit trade association comprised of builders, designers and suppliers for sports facilities, exists to promote the highest standards of design, construction and maintenance.

ASBA represents companies actively engaged in the building of synthetic and natural grass sports fields. The Association also represents designers of such fields and suppliers of related materials. A majority of field builders also install tracks and synthetic track surfaces as part of a project scope of work.

HQ Located in Forest Hill, MD

Synthetic Turf Council is a non-profit association dedicated to serving as a resource for trustworthy information about synthetic turf. Their objective is to encourage, promote and facilitate better understanding among all parties involved in the manufacture, selection, delivery and use of today's synthetic turf systems.
